

Excelling in European Finance & Insurance Industry
fostering innovation and high value initiatives

Group Corporate Presentation

AGENDA

- **Excelling in European Finance & Insurance Industry
fostering innovation and high value initiatives**
- Appendix

Building the excellence in Finance & Insurance

«A Solid Foundation»

A photograph of a large orchestra performing in a grand, ornate hall with red seats and balconies. The scene is lit with warm, golden lights, creating a sense of grandeur and tradition.

Our Mission

- Supporting «Leading Financial Institutions» and major «Insurance players» through a superior ability in managing complexity due to transformation initiatives, innovation programs and compliance matters;
- It means to serve our clients in their major challenges:
 - Rethink their business
 - Manage Digital Revolution
 - Solve Regulatory Issues
 - Excelling in Operations
 - Rise Performance & Risk Control

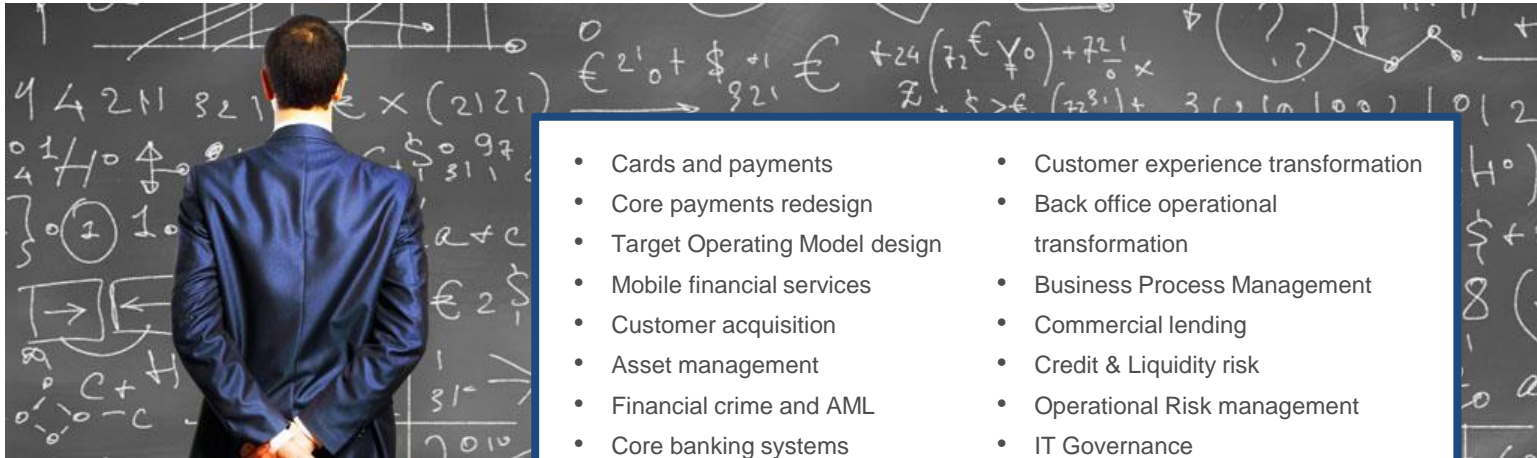

A Value Proposition based on

- The outstanding talent and specialization of our professionals
- A deep company knowledge of financial and insurance matters
- A unique positioning in the middle field between strategy and ICT solutions
- Our standing of preferred consultants of some of the industry leaders in major banks & institutions
- An already consistent vision of European market and a real multicultural environment due to our presence in 8 different countries
- A continuous search for the improvement of our performance, a relentless passion to get the excellence

We want to be among the **Top 3 Companies** in «**Consulting and ICT Services**» for «**Financial & Insurance Service**» industry in «**European Arena**»

Enhancing Be Core Strengths and experiences

We leverage a Pan European network of Companies

Geographies & Group Organization

We help our clients to rethink business models, navigate the FinTech arena, align with industry and regulatory requirements, engage customers, monetise assets, monitor performance and demystify the digital world.

Be has Employees & offices in UK, Italy, Germany, Poland, Austria, Romania, Ukraine, Switzerland

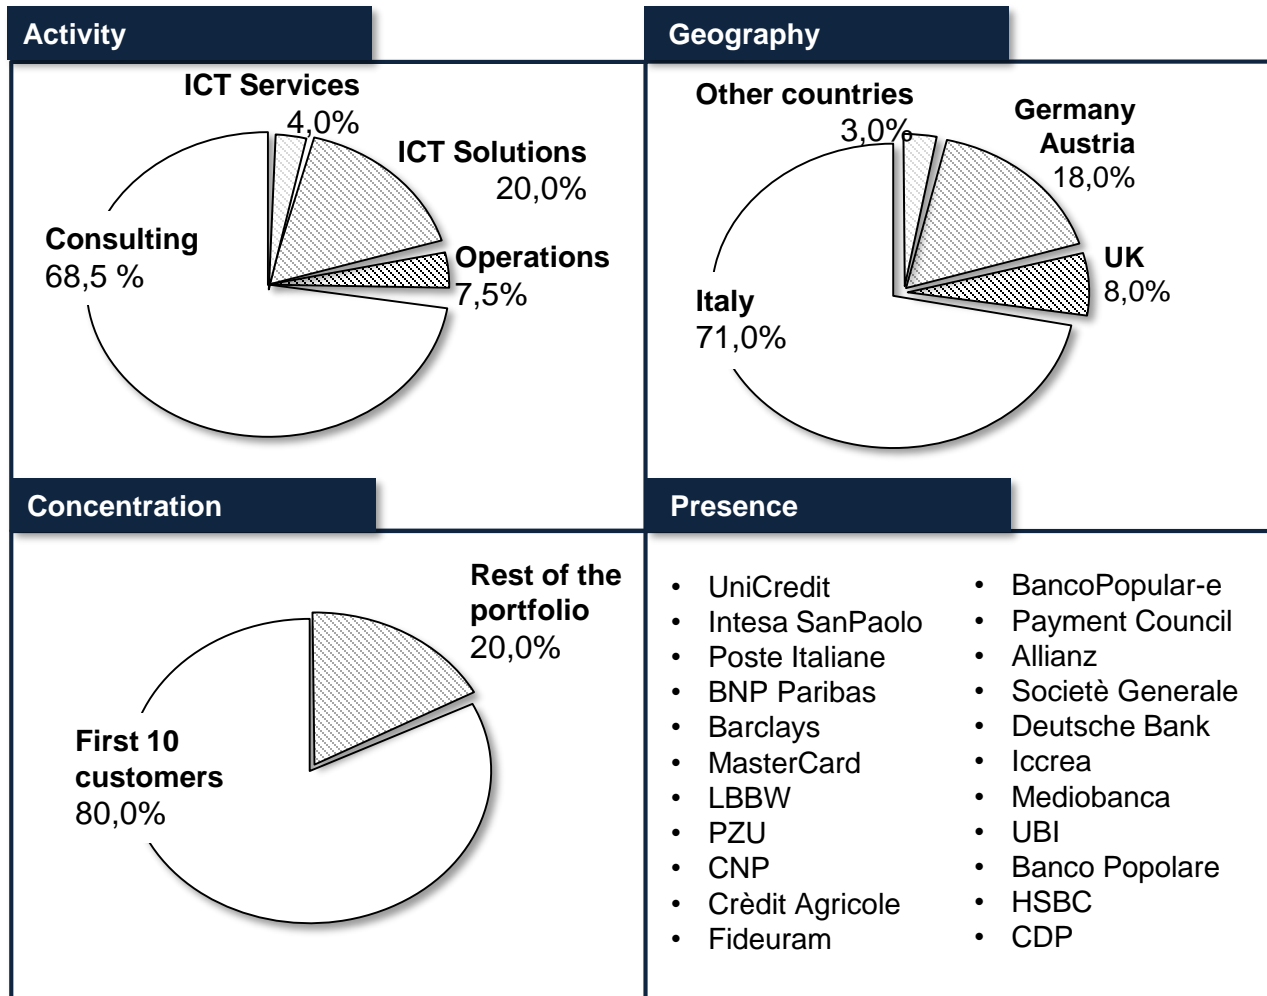

Be is a major IT consultancy specialized in financial services. The Group has over 1,000 employees across eight offices in Europe and revenues in excess of €100m

A specialist player in the Financial Service Industry

Revenue Portfolio Structure

2013-2015, Y/Y Revenue Growth

Turnover + 16,9 ml/€ +17%, EBIT +32%, Net Profit +232%

Guidelines & Target 2015-2017

Our main Goals

- 1** **Increase the share of non-Italian revenues from current 20% to 35% by 2017.** The expectation is based on the increasing sales volume from targit GmbH (Germany, Austria and Switzerland), the strong growth of our “digital hub” (operating in UK, Italy and Germany) and the development of the new venture in the Sports, Media and Entertainment segment.
- 2** **Strongly increase the revenue volume for Consulting services.** We expect to consolidate on the domestic market and to increasingly gain access to medium-large size projects of international scale, while expanding our services portfolio through access to new competencies.
- 3** **Recover margin in ICT services** (from 13% to the 18%). We expect the existing ICT business lines – Enterprise Data Governance, Insurance, Utilities – to develop steadily. This will be driven by the hiring of new highly specialized resources and reduction of external contractors.
- 4** **Invest on the “Be” brand.** We are revising the current exposure of Be on the Internet and the main professional social networks. We plan to invest on the continuous improvement of our performances by launching of "quality review" and "customer satisfaction" initiatives.
- 5** **Engage more than 1,500 "professionals" in 2017.** We plan to fuel the growth of our business with high qualified and cutting-edge competencies in ICT and business consulting.
- 6** **Reduce our Net Financial Position from 24.7 ml / € as of 30.06.2014 to about 13 ml / € at the end of 2017.** Our cash flow projections are based on the planned EBITDA growth and consider our debt re-payment obligations and the investment required to streamline operations.
- 7** **Distribute dividends.** Given the expected results, we believe that during 2015-2017 dividend distribution will be compatible with strengthening the Group’s financial position.

Lines of development and target 2015-2017

3Y Plan targets

Key Assumptions

- The 2015-2017 Plan is based on the current business perimeter.
- Although these may have a limited and indirect impact on the company results, the plan also takes into account a number of macroeconomic variables for the geographies in scope:
 - Limited GDP growth in 'the Eurozone' (1.5% on average).
 - 3-month Euribor expected to remain stable for 2015 with a recovery of +0.20% in 2016 and +0.50% at the end of 2017
- We do not expect substantial changes in foreign exchange rates in the medium term.

AGENDA

- Excelling in European Finance & Insurance Industry fostering innovation and high value initiatives
